The Most Established ABA Service Provider Since 1994

Autism Partnership (AP) is one of the largest and most established Applied Behavior Analysis (ABA) service providers for Autism Spectrum Disorders (ASD) in the world.

Formed in 1994 in the United States. Founded by 3 world-renowned authorities in the treatment for autism since 1970s and run by a professional team of doctorate and master degree holders, clinical psychologist and Board Certified Behavior Analysts with an average of 10 years of experience in planning and implementing ABA intensive Behavioral Treatment.

The Most Effective and Recognized Treatment – ABA

Applied Behavior Analysis (ABA) has been developed over 50 years and was firstly applied to child with ASD by Dr. Ivar Lovaas. It is the most recognized treatment with scientific base in helping children with ASD.

ABA is the ONLY treatment method used by AP. With years of researches and clinical works, we have adopted our very own unique style of ABA which is more child-centered and naturalistic.
